Oct 2025 – May 2026

- Volunteered at the Final Year Project (FYP) Exhibition, assisting with event coordination.
- Contributed to cybersecurity awareness activities and technical engagement among students.

**Web Developer — IEEE Computer Society UCP**

July 2026 – Present

- Completely revamped and modernized the IEEE CS UCP website.
- Worked with Next.js and PostgreSQL to build and maintain the platform

## UNIVERSITY PROJECTS

**Talent Vector AI**

April 2026 – June 2026

- Python • React • AI/ML (AI/ML Course 6<sup>th</sup> Sem)
- AI-powered recruitment platform for candidate evaluation and talent matching.

**PSX Prediction System**

April 2026

- Python • Machine Learning • Data Analysis (P&S Course 6<sup>th</sup> Sem)
- Machine-learning project for analyzing and predicting Pakistan Stock Exchange data.

## SELF PROJECTS

---

### Personal Portfolio Manager for PSX

- Python • React - LLM
- Personal platform for managing and analyzing PSX investment portfolios.

### MERN E-Commerce Platform

- MongoDB • Express.js • React • Node.js
- Full-stack e-commerce platform built to develop practical MERN development skills.

### MegaTrix AI Social / AutoPosting

- AI • Automation • Buffer MCP • Antigravity
- AI-assisted social media automation system for content generation, scheduling, and publishing.

## COLLABORATIVE & REAL-WORLD PROJECTS

---

### AsanShipping (FYP)

- React • Node.js • Python • MongoDB • AI • NEXT.js
- SaaS platform for e-commerce order management, COD verification, courier integration, and logistics automation.

### MyPortalUCP

- React • Node.js • MongoDB
- Student platform built to help UCP students collaborate and access useful university resources.

### School Hub

- Full-Stack • SaaS
- School management platform for managing academic and administrative operations.

### BizManager

- Full-Stack • SaaS
- Business management platform for handling customers, inventory, sales, expenses, suppliers, and profits.

## INTERESTS

---

AI & Creative Technology • Chess • Gaming • Gym • Robotics
